Art Unit: 2652

1. Applicant's election without traverse in Paper No. 12, filed 25 November 2002, and clarification in Paper No. 14, filed 26 February 2003, of "Group II, claims 2-4, 8-11 and 15-18" and "newly presented claims 24-27", and cancellation of non-elected "Claim 1" in Paper No. 12, filed 25 November 2002, is acknowledged.

2. Upon further consideration and in light of applicant's amendments/remarks, restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 2-4, 8-11 and 15-18, drawn to a "slider scale package assembly", classified in class 360, subclass 234.5.
- II. Claims 24-27, drawn to a "method of supporting a slider/magnetic recording (MR) head", classified in class 29, subclass 603.03.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions of groups II and I are related as process of making and product made, respectively. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process, such as, a process not including "positioning the head interconnect circuit adjacent the suspension", for instance.

Art Unit: 2652

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(i).

7. Any inquiry concerning the above referenced application should be directed to the examiner, Craig A. Renner, whose telephone number is (703) 308-0559, and whose facsimile number is (703) 872-9314. The examiner can normally be reached Tuesday through Friday
